

STAGE V
CERTIFIED

2WD/4WD Rough Terrain Forklift

with capacities of 5,000 to 10,000kg

The World of Hangcha

HANGCHA be with you at every stage

Efficient, reliable solutions for your demands

STAGE V

With Hangcha you can meet all Stage V emissions standards which provides customer demands for value, innovation and performance. Designed and optimised to every engine model, our forklift truck maximises efficiency and reliability.

DEUTZ

Technical Route :
TCI+CR+EGR+DOC+DPF

CUMMINS

Technical Route :
TCI+CR+DOC+DPF+SCR

Used for Deutz engine

Interactive instrument: The instrument has CAN bus communication function. The communication protocol is compatible with CANopen and SAE J1939 standards.

Used for CUMMINS engine

Interactive instrument: The instrument adopts LCD display with four interactive buttons, and has one CAN bus communication function. The communication protocol is compatible with SAE J1939 standards.

HANGCHA Forklift with StageV

No.	Capacity	Series	Manufacturer	Engine	Drive power	Model	Emission Std.	Transmission	Power (kw/rpm)	Service brake

Note: Stage V applied for European Union also including Israel and Turkey

**Powerful/
Efficient/
Reliable**

CONCEPT

HANGCHA rough terrain forklift with 2WD/4WD was developed on the basis of the XF series of Hangcha. It adopts the Deutz and Cummins engine, which is powerful and reliable, easy to maintain; It can adapt to the rugged roads in the stone market, timber market, construction sites, etc., as well as the wet and slippery roads in rain and snow.

2WD
ROUGH TERRAIN

4WD
ROUGH TERRAIN

Safety

- / Thanks to the steering oil circuit and the brake oil circuit are independent of each other, thereby reducing the interference of the brake on the steering, the hydraulic braking system is very safe.
- / With the structure of brake valve plus the accumulator, it is safer and reliable.
- / The returned oil filtration device is taken as the standard configuration to extend the service life of the hydraulic elements.
- / OPS function is available for option, work is safer and reliable.

Comfort

- / With the suspension and integrated overhead guard, full-floating transmission, complex engine shock absorber and suspension seat, driving is more comfortable, and the vibration and noise of the truck can be reduced.
- / The extra foot space is provided to reduce operator fatigue significantly, non-slip step makes getting in and out easy and safe. The new designed steering wheel, new brake system and the easy-to-operate levers provide total handling operation.
- / Excellent upward visibility is provided by a large roof screen, in fact, visibility all-round is excellent.

4 drive wheel multi-gears transmission

- / The hydraulic transmission box of the multi-gear 4WD transmission electro-hydraulic commutation, with electronically controlled decoupling function (one-key switching between 4WD and 2WD), provides higher running speed and greater climbing ability.

- / 5t transmission gears are 3 in the front/1 in the back, 7t/10t transmission gears are 3 in the front/3 in the back.

Easy maintenance

- / The two-piece design makes the floorboard easy to lift and remove for access to the power train.
- / The radiator cover can be turned easily by hand to enable quick inspections or servicing.

The easy-to-open hook provides quick access to the engine compartment

The tilt angle of the mast is 15° in the front/15° in the back, which is more suitable for loading, unloading and transportation of goods in off-road conditions

Oscillating steer axle allows either wheel to step over obstacles keeping the truck and load level

To achieve maximum productivity, a rough terrain forklift operator needs to be comfortable and in control. We've created a workplace that gets the best from your operators and your machinery

Reliability

- / The reinforced truck chassis with CAE simulation software, optimized design is conducted for the tilt cylinder and steering drive axle installation.
- / Dual air filters and two-stage air filter are taken as the standard configuration to guarantee that the engine can operate for long time and under the optimal status.
- / Deutz engine adopt, "TCI+CR+EGR+DOC" technical route. Adopt EURO III B/Tier4F emission can be met, and it is energy-saving and environment-friendly; A turbo engine further enhances performance at low engine speeds for improved power and tractive effort.

The differential is specifically designed for rough terrain and features manual differential lock providing ultimate traction during inclement weather conditions and rough operating surfaces, it differential lock prevents power loose when one wheel spins.

Full-floating hydraulic drive gear box has the function of switching between 2WD and 4WD, and can provide higher run speed and stronger climbing ability;

Higher specification fork mounting level-IVB(5t/7t), more weight can be loaded.

Front tyre

Rear tyre

Productivity

The transmission system gets the maximum performance from the engine without reaching high revolutions, which provides fuel saving, noise level reduction and engine life increase.

The new Dynamic load sensing hydraulic steering system contributes to reduce loss of hydraulic and improve energy efficiency.

The new efficiency lighting system employs LED illuminant and new type reflector to reduce energy consumption, improve significantly illumination performance and prolong work time.

Wet brake offers maximum service life for your brake system.

Maneuverability

The distance to ground is 370mm, it offers greater maneuverability and keep the truck moving in the roughest of applications, and yet we keep a very low center of gravity, by using a distributed weight in the forklift, giving it an excellent stability.

Standard specification

- / Counterweight cover
- / Full-suspension seat
- / Dual air filters
- / High-position exhaust
- / Fuel tank cover (with lock)
- / Fan protection device
- / Rear working light
- / Alarm light
- / Emergency switch
- / Right and left reflective mirrors
- / PVC ceiling
- / Wet brake
- / Mud baffle provided with rigging hole

Options

- / Front windshield and wipers
- / Cab (warm air blower and fan are available for option)
- / Solid tyre
- / Engine cover with lock
- / Engine cover with dual sound insulation cushion
- / Engine cover with lock+ dual sound insulation cushion
- / 3rd/4th/5th valve
- / Voice type reversing buzzer
- / Blue light lamp
- / Low-temperature cold start-up battery (-20 °C)
- / OPS system
- / OPS system & Compatible with Sequential Seat Belt Interlock System
